# Better Healthcare For Everyone

**Godrej Interio Healthcare creates environments that support the healing process. By aligning efficiency with empathy, our healing environments maximise the wellbeing of all stakeholders involved: Patients, Caregivers, and Doctors.**

We believe that a good healing environment focuses on the patients and their relatives, while simultaneously helping caregivers become more efficient and doctors more comfortable. Our design philosophy adopts a human-centric approach to increase the harmony between spaces and products, resulting in an improved patient-doctor interaction.

Additionally, we bring our expertise in OCE space design to create people-centric spaces such as canteens, lounges, waiting areas, meeting and video conferencing rooms, and storage solutions. We can design and deliver a complete healthcare space as per your budget, and furnish the same. Our Healthcare furniture products are ISO 13485 certified, USFDA registered, and rated for CE certification from the European notifying body.

Space is our playground. And it's our endeavour to make life the winner.

# Studies that Inform our Designs

**Space design is the study of the workflow between various stakeholders.**

Our recent study revealed that Caregivers, the vital stakeholders in the healing process, walk 8-10 kms in an 8-hour shift due to incorrectly designed spaces.

Here are some of the other insights from our research:

- More than 90% of the nursing staff complained of some form of MSD (musculoskeletal disorder)
- The most prevalent pain areas were the legs (56%), followed by the knees (51%)
- 51% complained of upper and lower back issues
- 61% also experienced neck pain sometimes
- 41% of the nursing staff took 1-3 days leave, whereas 7% of them had taken a leave for 4-6 days within a span of two months to manage their pain. This indicates a clear productivity loss to the organisation.

# Challenges that Motivate our Goals

**Everyday, Caregivers strive hard to provide superior healthcare services to their people. It's their zeal that motivates us to create better and safer healing environments for everyone. We learn from their challenges and design products and develop spaces to create an intuitive, dynamic, and ergonomic healing environment.**

**Thus, our goal is to become the ultimate facilitators for care, and the support system that patients, family members, caregivers, and doctors can rely upon.**

# Designed For All Medical Needs. General, Multiple, or Specialised.

**Our design team doesn't limit itself to improving established solutions. Our products cater to key customer needs across a variety of healthcare environments, while also being equipped to simultaneously serve multiple other use-cases as well.**

Here are the parameters that govern Godrej Interio Healthcare products:

## ■ Global Safety Standards

All our products adhere to the most stringent global standards and quality certifications. We make sure that every product created has:

- No Sharp Edges
- No Electrostatic Charge
- No Cold Shock
- All Entrapment Zones Taken Care Of
- Fall Protection

## ■ Uncompromised Comfort

We believe that a safe healing environment is one that's not only comfortable to the patients, but also to their caregivers. That's why our products come with:

- Easy-To-Use Controls/Crank Handles
- Ergonomic Design
- Easy Manoeuvrability
- Compatibility With Associated Products and Surroundings

## ■ Assured Hygiene & Easy Maintenance

Godrej Interio Healthcare products are coated with bacteriostatic powder to ensure infection control and better pre-treatment procedures. Their simple construction provides easy access for cleaning and fumigation.

# About Us

**Godrej Interio (GI) is India's premium furniture brand in both home and institutional segments with a strong commitment to sustainability and centers of excellence in design, manufacturing and retail.**

Led by the largest in-house design team in the country in the furniture category and awarded with 34 India Design Mark Awards till date, GI aims to transform spaces with its thoughtfully designed furniture to create brighter homes and offices with products that have the highest design quotient in aesthetics, functionality and technology. With consistent pursuit of excellence and a special focus on health and ergonomics, GI's product portfolio comprises a massive range.

Today, we design and manufacture furniture for office spaces, homes, educational institutes, healthcare facilities, laboratories and more. Along with furniture we offer Audio Visual and 360 Degree Turnkey solutions. Each of our product range revolves around comfort and aesthetics while delivering well-designed, fun and functional furniture solutions. Briefly, Godrej Interio transforms dream spaces to life!

Godrej Interio has 8 manufacturing facilities situated at Mumbai, Haridwar, Shirwal, Khalapur and Bhagwanpur. GI's Shirwal Plant is GreenCo Platinum Certified and Mumbai Plants are GreenCo Gold Certified. GI is widely known for its comprehensive sustainability certifications for its products in furniture category.

GI's commitment to the environment has resulted in manufacturing products with lesser environment footprint. Our pioneering efforts include designing less environment burdening products, usage of eco-friendly materials and setting up less polluting and consuming processes, ensuring eco-friendly packaging, and transportation and finally the extended responsibility of recycling/reuse of used furniture and scrap, thus ensuring a lifecycle approach to green. GI has the widest range of green choices for our customers, which not only includes products but also services such as green interiors and recycling.

Currently present in over 650 cities with 300+ exclusive showrooms and 1200 dealers, GI is one of the largest divisions of Godrej and Boyce Mfg. Co. Ltd., part of the Godrej Group, one of India's largest engineering and customer product groups.

# Customize. Create. Heal.

## The Aksh Range of Hospital Beds

## Presenting The Aksh Range of Hospital Beds

Godrej Interio is proud to present the innovative Aksh Range of Hospital Beds. These beds can be customised to perfectly balance the needs of your patients and caregivers. And the range offers excellent value for money for healthcare institutions looking at large scale expansion to meet the growing demand for good and responsible healthcare infrastructure.

## AKSH OFFERS MULTIPLE LEVELS OF FUNCTIONALITY

Different spaces in hospitals need different kinds of beds. The Aksh Range offers 3 platforms with unique functionalities.

BED 1

### FOWLER BED

Comes with adjustable backrest and knee rest, offering comfort to patient and ease of work to the caregiver. Ideal in the early period of recovery.

BED 2

### SEMI FOWLER BED

Comes with adjustable backrest, supports the patient to sit up. Recommended in later stages of recovery.

BED 3

### SHEET BED

This is a simple bed, facilitating care in the initial phases of admission, and supports long periods of convalescence.

# CUSTOMISE THE BED TO YOUR NEEDS

Every hospital has its own set of patient and caregiver needs. At Godrej Interio, we understand the nuances of healthcare spaces and constantly strive to provide hospital beds that will meet these special needs. The Aksh Bed seeks to offer the hospitals multiple options to ensure you get the bed that you want. From a choice of platforms to headboard finishes to railings... you get to pick them all.

## 4 LEVELS OF CUSTOMIZATION

<b>Platform functions</b> Fowler, Semi-fowler, Sheet	<b>Headboard / Footboard Finish</b> Polypropylene (PP), Wooden SSPLT, Mild steel (MS)	<b>Siderail Protection</b> 3 bar MS, Aluminum ladder type	<b>Mobility</b> Castors, leg shoes
--	---	---	--

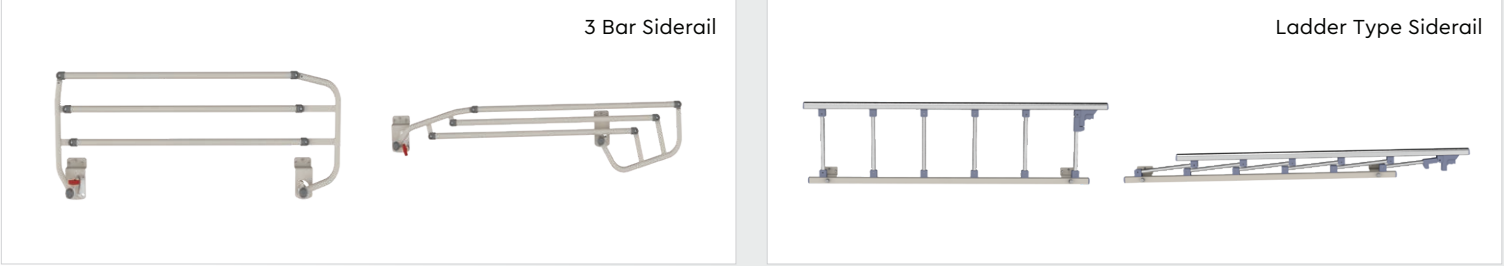

### 1 LYING SURFACE PLATFORMS

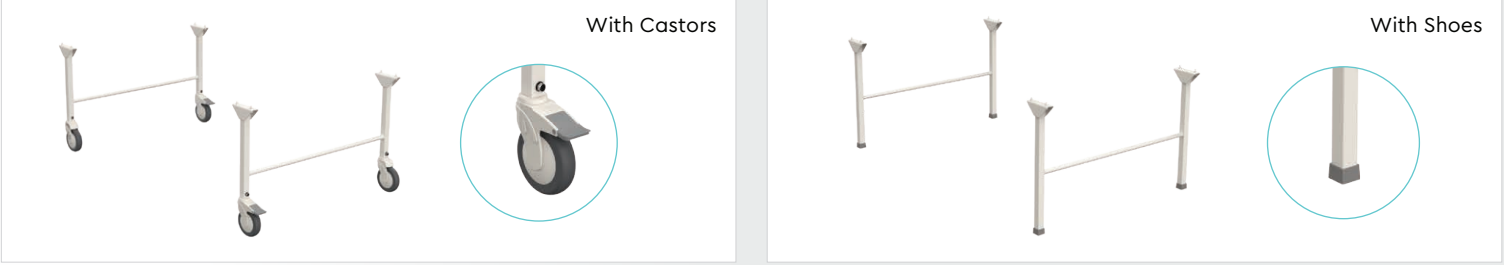

### 2 HEADBOARD / FOOTBOARD

### 3 SIDE PROTECTION

### 4 LEG OPTIONS

## CUSTOM MAKE YOUR OWN BED

As healthcare facilities expand, hospital beds are one of the most integral elements of this growing medical infrastructure. Given the large volume they are required in, keeping them cost effective is an important aspect of hospital administration. The Aksh Range of hospital beds is an innovative concept where a choice of material, type and design is available with all the three bed platforms.

This gives you a lot more to choose from and make the right match of functionality and aesthetics that fits well into your budget. Here's a look at all that you can pick from.

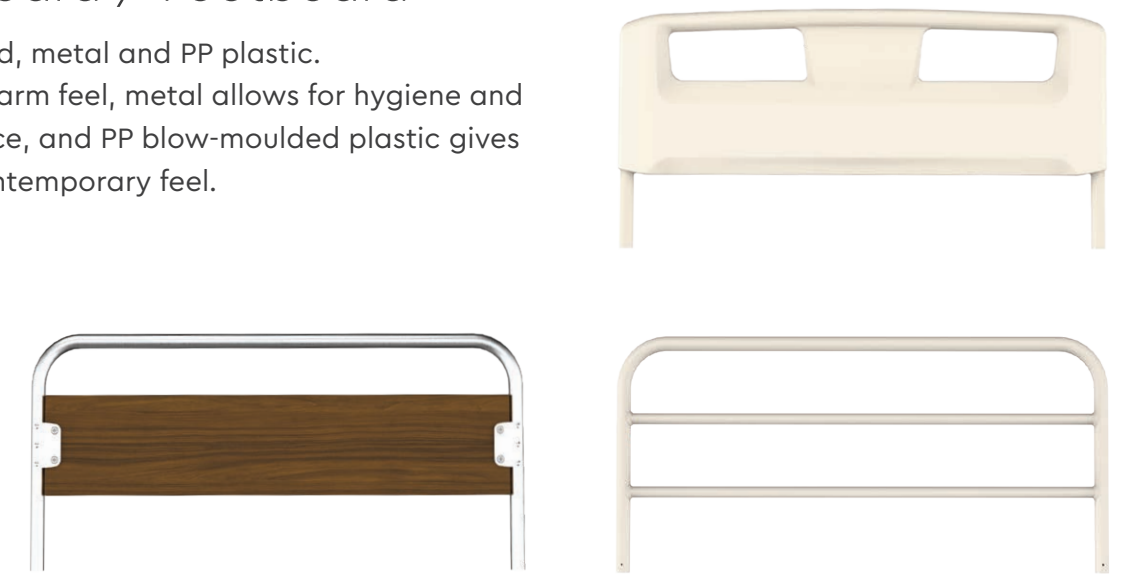

### 1 Manual operated cranks

Fowler bed comes with 2 manual operated cranks for adjusting the backrest and kneerest. Semi-fowler bed comes with one crank for backrest adjustment. Sheet bed comes as a plain bed and is crank-less.

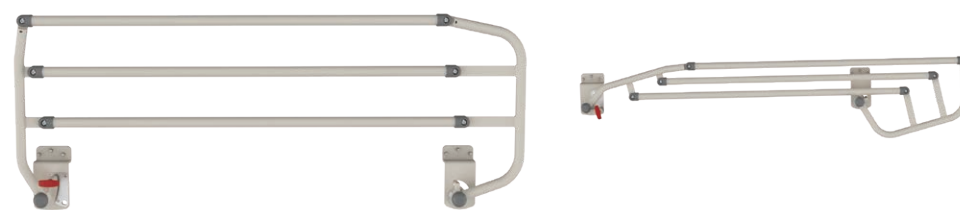

### 2 Headboard / Footboard

Available in wood, metal and PP plastic. Wood offers a warm feel, metal allows for hygiene and easy maintenance, and PP blow-moulded plastic gives your space a contemporary feel.

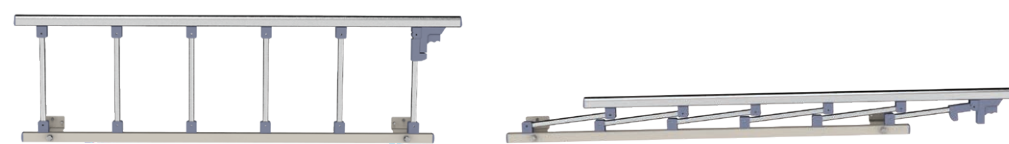

### 3 Siderail protection

Options include the horizontal metal bars and ladder metal railings. Both can be lowered for easier patient ingress and egress.

MS 3 bar siderail with pull & turn mechanism

Ladder type collapsible siderail integrated with press to unlock and collapse mechanism for the secure operation.

### 4 Mobility

Legs with castors offer mobility. These are 125 mm in diameter, single-wheel diagonal locking castors – smooth rolling and durable.

In areas where there is no need for moving the beds around, leg shoes offer a neat streamlined appearance.

AT A  
GLANCE

Here is a look at the various combinations that can be achieved with the many options available. Review this showcase to better understand how the product will finally look. We are sure this display will make it easier for you to decide which bed type you would like for the different zones of your healthcare setup.

The GREENGUARD Certification Program gives assurance that products designed for use in indoor spaces meet strict chemical emission limits, which create healthier interiors. The certification qualifies for LEED credits and IGBC credits.

In keeping with the Godrej policy of continuous development and improvement, the design, dimension and specification may be updated without prior notice or obligations. Form, Colour and Finish of product in this document are representative of design intent and may vary from actual. Colour options depicted in this catalogue are as close to what modern printing processes allow. All dimensions are in 'cm' and are subject to commercial tolerance. Our products are meant for indoor use only.

A journey towards satisfying maternity experiences

**SOLACE**  
LDRP Birthing Bed

## Creating 'Welcome Spaces' for new arrivals

Bringing a new life into this world is a miracle of nature, made a little simpler and safer with the combination of caregiver support and cutting edge delivery beds and equipment.

As awareness around natural childbirth procedures spreads among mothers, there is a growing need for hospitals and doctors to create delivery spaces that support the natural process.

At Godrej Interio, we have been focused on creating healthcare spaces that deliver safe, caring and healing experiences for the patient, family and caregiver. With Solace LDRP Birthing Bed, we look forward to making the journey of delivering a baby comfortable for the mother and efficient for the caregiver.

# Solace LDRP Birthing Bed: One stop solution for all birthing procedures

The LDRP journey for the mother is a long one and needs the best of medical care and support. Solace is an ergonomically designed bed that allows the mother to go through all phases of childbirth procedure without having to shift beds.

Solace is an electronically operated single solution for labour, delivery, recovery and postpartum phases. It caters to demands of all stages of the birthing process.

Thoughtfully designed, the bed provides support for the mothers and facilitates efficient functionality for nursing staff.

Its flexibility and ease-of-use offers a practical, cost-effective solution for the modern, progressive labour suite while offering warm and cozy home-like comfort in professionally managed hospital rooms.

# Becoming a mother: A journey made comfortable & safe

This is a unique and a strenuous journey for the mother and her caregivers. Solace is designed to make this journey smoother and more efficient for all involved.

Solace Birthing Bed:  
Efficient & easy to operate

# The Versatile Choice

During childbirth, ensuring the mother is comfortable at all times, and caregivers are able to support her needs efficiently is key for a smooth and safe delivery.

Solace comes with electronically operated backrest, height and TR to enable caregivers to quickly respond to the woman's constantly changing health conditions during the procedure.

Further, the Bed, with its versatile design and patient footrest, calfrest, handgrip, etc is equipped to accommodate a multitude of birthing positions, while ensuring safety and ease of shifting across positions at all times.

Squatting Position

Lithotomy Position

Semi-recumbent Position

Supine Position

Side Lying Position

## Little Things Matter

When you are supporting your patients through one of their most significant life events, one which they will remember for their entire lives, it is important that you get every detail right.

That is where Godrej Interio with its commitment and absolute attention to detail comes in. Solace offers comfort to the mother, baby and family,

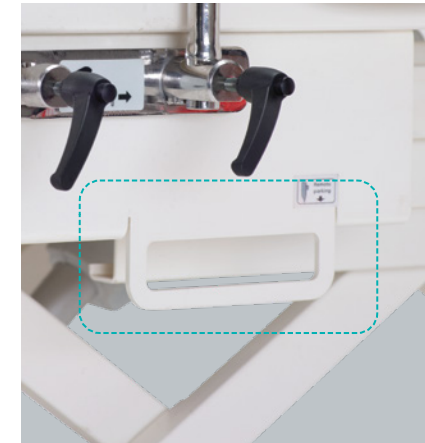

while its thoughtful and ergonomic design makes it easy and safe for your staff to move around efficiently and deliver the best care that is expected from them.

Here's a look at the details of Solace that make it perfect for delivery spaces.

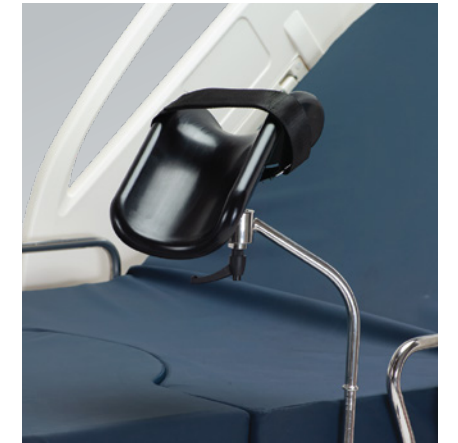

## Designed For Performance

Electronically controlled backrest, height & TR

Accessory rail for hanging remote handset, urine bag holder

360° adjustable calf supports

Patient footrests

Hand grips

Sideboards

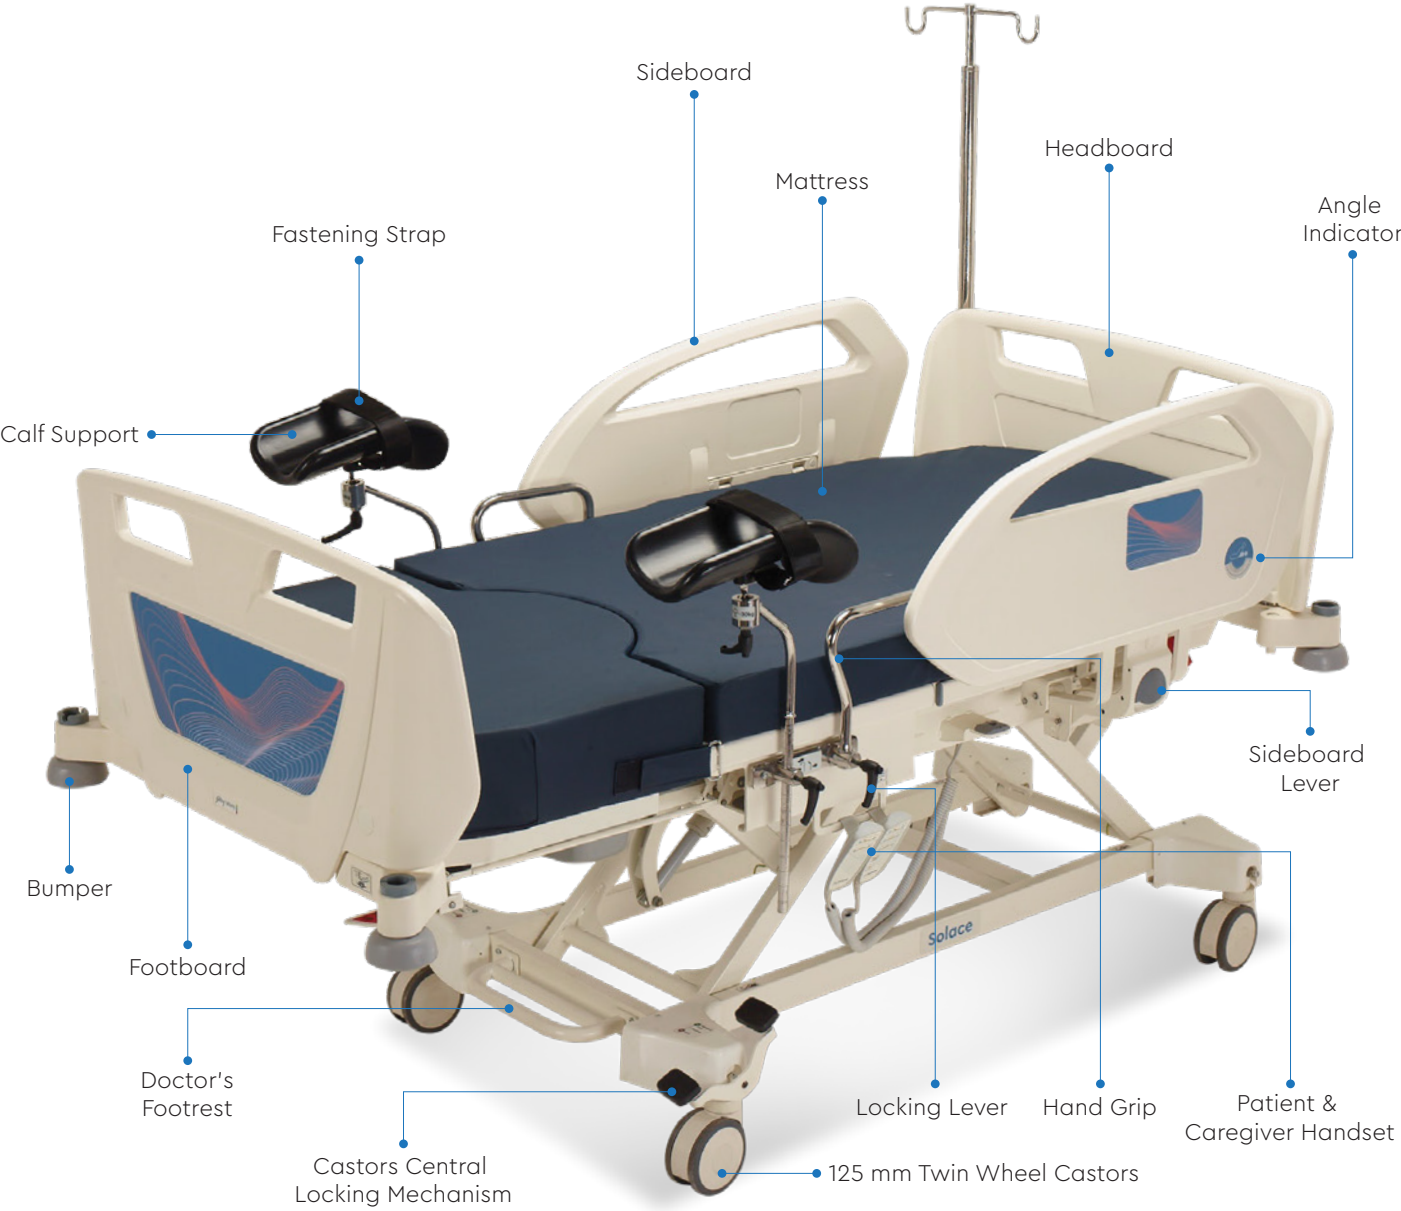

- **Electronically controlled backrest, height & TR:** This allows the mother in labour to sit up with ease.
- **Accessory rail:** This rail is ideal for mounting accessories and keeping them handy. Useful for hanging remote handset, urine bag holder, etc.
- **360° adjustable calf supports:** The cushioned calf-supports are adjustable, allowing the mother to shift into a comfortable position. The cushioning ensures the calves remain well supported at all times.
- **Patient footrests:** Firm footrests offer sufficient support to mother when in squatting position.
- **Hand grips:** A pair of hand grips for the mother to hold onto. This gives her a greater sense of safety and control.
- **Sideboards:** The sideboards have smooth dropdown mechanism, making the lowering and raising of rails convenient.

**During labour and recovery:** The siderail provides support and grip for the mother. Siderails move along with the back section during back raise allowing mother to grip on it. The side board design offers safety by preventing potential falls and slips during labour and recovery.

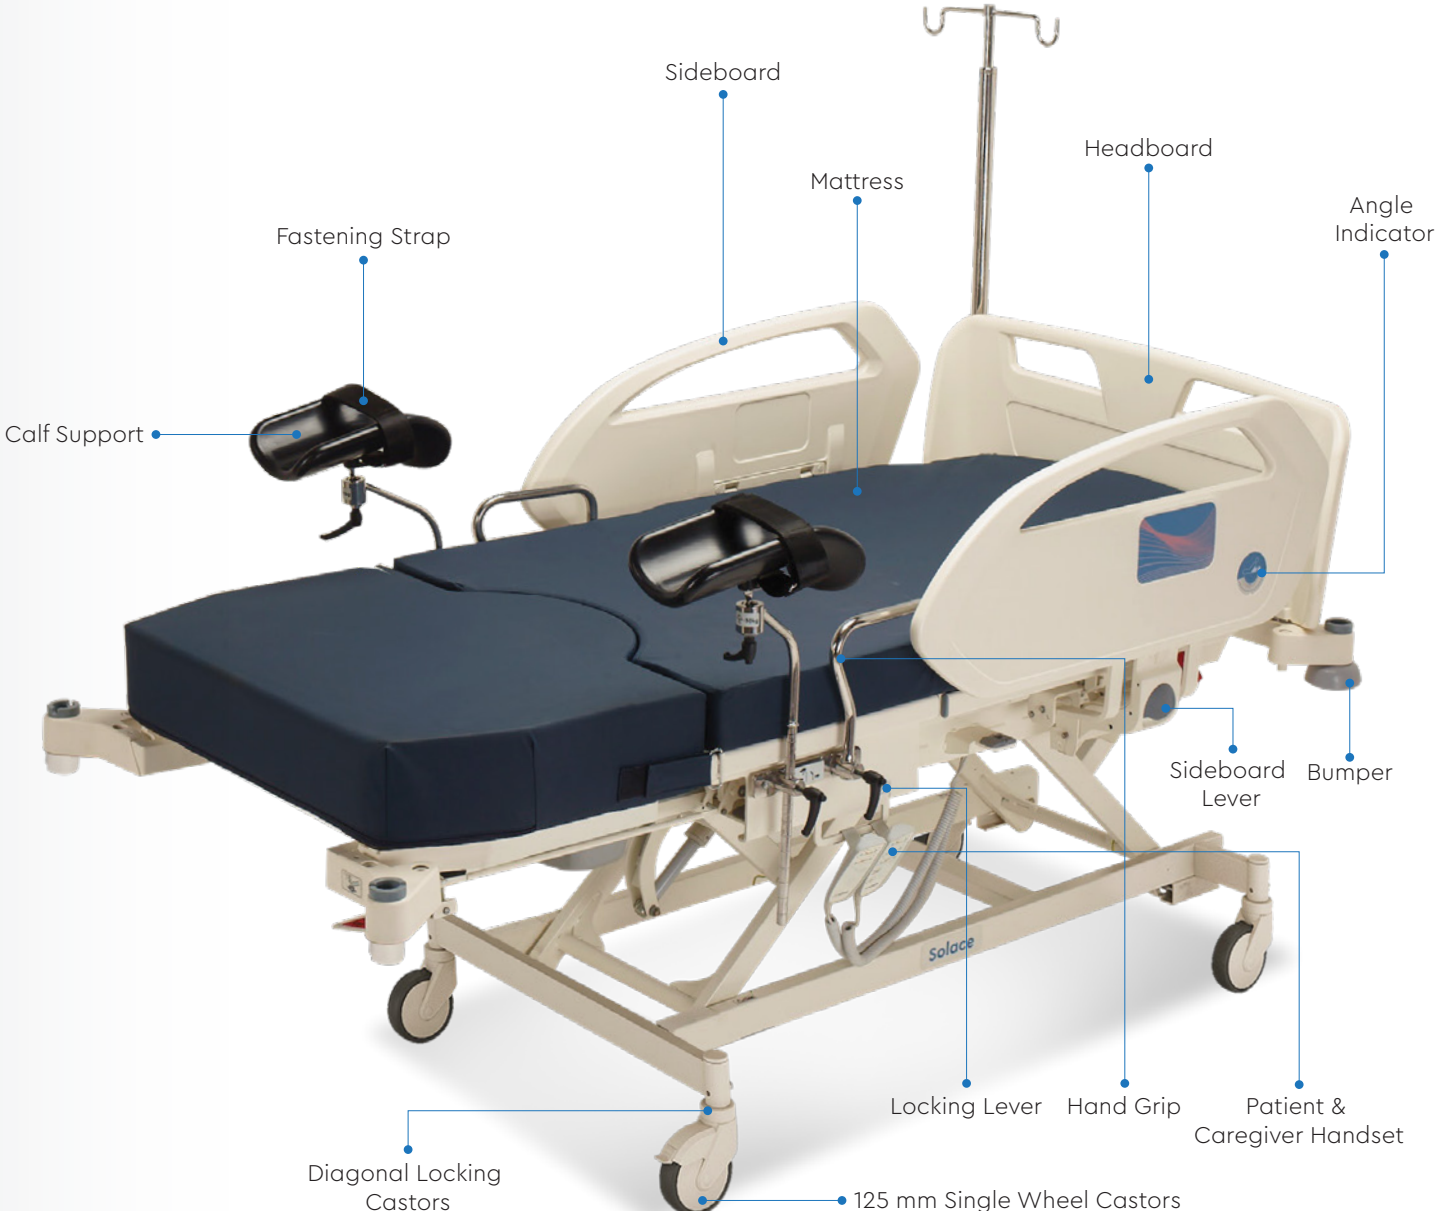

# Solace Birthing Bed

Available in 2 variants, Solace and Solace Lite, this birthing bed is designed to meet the LDRP needs across gynaec delivery rooms of all types and sizes.

Solace LDRP	
Lying surface	Backrest, pelvic, legrest in compact laminate.
Castors	125 mm twin wheel central locking castors.
Footboard	Available
Doctor's footrest	Available

# Solace Lite Birthing Bed

Solace Lite LDRP	
Lying surface	Backrest in MS Sheet; pelvic and leg rest in compact laminate.
Castors	125 mm single wheel diagonal locking castors.
Footboard	Not Available
Doctor's footrest	Not Available

# Enhances Caregiver Productivity

Doctor's footrest

Manual & electronic CPR

125 mm locking castors

Sliding/retractable legrests

Retractable legrest lever

Patient & caregiver handset

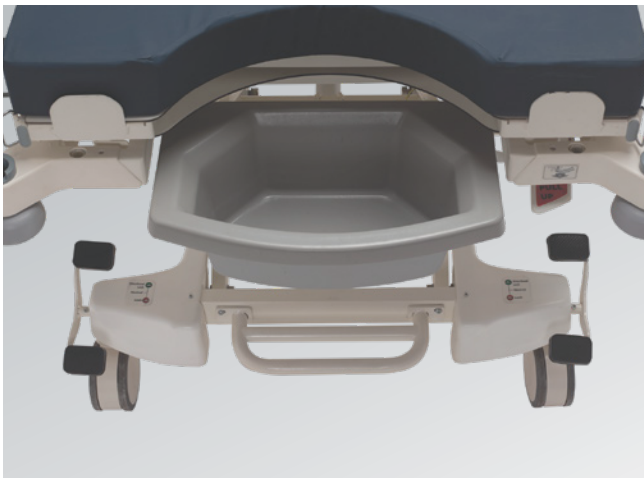

To help caregiver teams perform at their best, Solace has been designed with electronically adjustable features, doctor's footrest, easy remote operations and superior castor maneuverability.

- **Doctor's footrest:** Offers sturdy support for doctor and/or caregiver during procedure.
  - **Manual & electronic CPR:** Two Manual CPR levers are provided on either side of the bed, for emergencies and in case of power shutdown. There is also electronic CPR button available on the remote handset for ease of use.
  - **125 mm Locking castors:** Twin wheel central locking available in standard variant; single wheel diagonal locking available in Lite variant.
  - **Sliding/retractable leg rests:** The sliding feature allows for quick conversion from normal bed to delivery bed. Further, the retractable leg rests get locked when in extended position for safety. The design of the legrest also keeps the caregivers safe and minimises any chances of aberration that may be caused while handling the legrest.
  - **Retractable legrest lever:** Easy to use lever makes retracting the legrest simple and easy.
  - **Patient & caregiver handset:** Dedicated handset remotes are provided for mother and caregiver. This allows caregivers to easily make adjustments during delivery and labour. It also provides mother easy access and greater control on her position in the recovery and postpartum phase.
- Patient remote (optional):** Allows adjustment of backrest, height.
- Caregiver remote:** Allows adjustment of backrest, height, Trendelenburg (Head low), electronic CPR, underbed light.

# Facilitates Healthy Spaces

Compact laminate lying surface

ABS fluid bowl

PP injection moulded headboard & sideboards

Hygiene is a key concern around new borns and mothers recovering from labour and delivery. Solace, with anti-microbial materials, is designed for easy cleaning and minimizing infections.

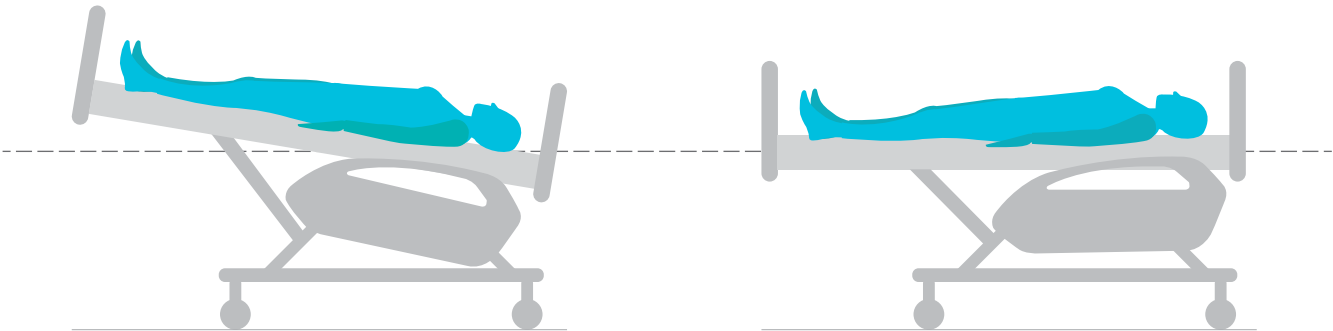

- **Compact laminate lying surface:** Aids in easy cleaning of the surface.
- **ABS fluid bowl:** With 10 litre capacity, ABS fluid bowl facilitates easy collection of birth fluids, ensuring high standards of hygiene.
- **PP injection moulded headboard, legboard & sideboards:** With anti-microbial properties, these surfaces keep your birthing zone hygienic and germ-free.
- **Accessory rack:** To hold leg section mattress, footboard, footrests, calf supports & hand grips

Accessory rack

# Made Smart To Keep Patients Safe

## Synchronous TR-height movement

This smart feature has been designed with specially developed software and hall sensing actuators. This feature ensures that after Trendelenburg, when bed is brought back to horizontal position, height of the bed remains the same as it was before Trendelenburg.

This provides safety and convenience to the caregivers while using other associated accessories and peripheral devices that may have been set at a specific height matching to the bed for ease of operation.

## Restricted ATR movement

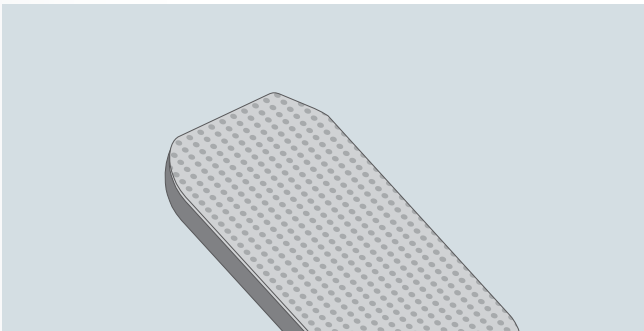

To keep the expectant mothers safe, a special software has been developed to disable the potentially dangerous ATR function in the bed.

This feature was developed as a result of our extensive field research and interactions with numerous doctors. The research revealed the dangers of tilting the delivery bed in ATR, occurrence of serious patient accidents in the absence of leg support, raised backrest, and during instances when the bed is elevated to higher height.

Trendelenburg feature with angle of up to 15° is allowed in the bed to facilitate clinical procedures.

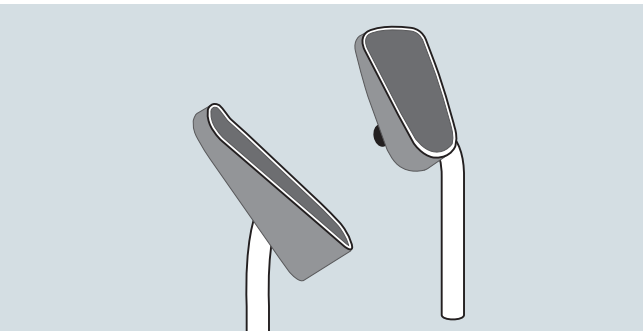

# Accessories

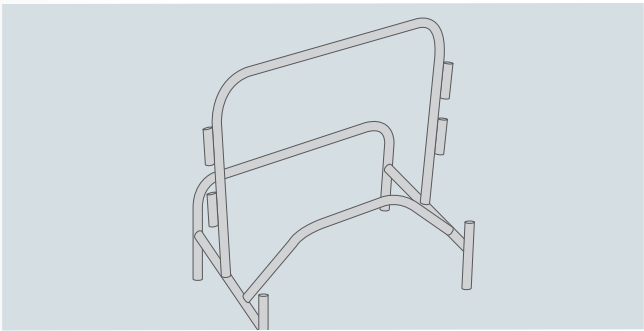

Solace mattress

Patient responsive mattress as accessory is the ideal match for Solace, facilitating comfort and quick recovery.

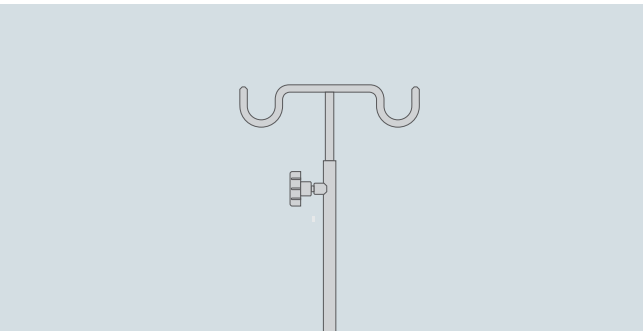

Patient footrests

Firm footrests offer sufficient support to mother in different birthing positions

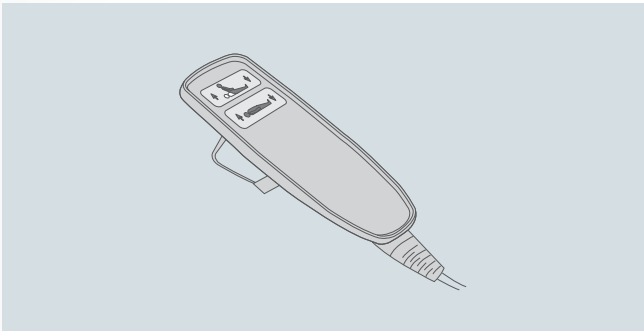

Accessory rack

A mobile rack to hold leg section mattress, footboard, footrests, calf supports & hand grips when not in use

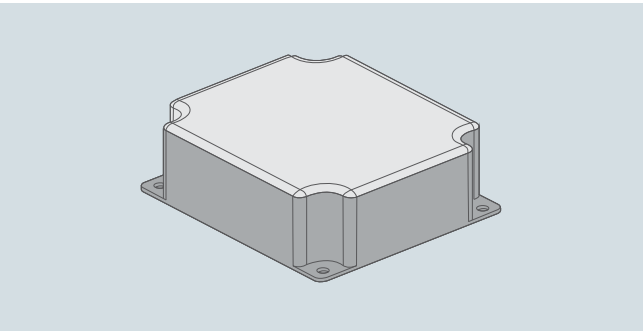

IV pole

Stainless steel IV pole is designed to be light weight, ergonomic and easy to use at any corner of the bed.

Patient handset

This freely accessible Remote Control Accessory gives the patient better control over her bed positions and comfort.

Battery backup

When unplugged from power source, all bed functions can be used with battery back up. This makes it easy to shift bed across wards and floors.
